About Me

- I have majored in Computer Science and Engineering from RUET with professional experience in different web applications development in software industry and looking for better opportunities where I can offer my **MERN** stack and problem solving expertise along with my other skill set to meet client needs and exceed their expectations.
- I am a Problem solver. I have a good grip on data structure and algorithms. I solved over 250+ problems in Leetcode and GeeksforGeeks and I want to apply this knowledge in the web development industry and enhance my experience.
- I'm a quick learner, tech enthusiast, computer nerd and full of passion to become a successful developer while maintaining integrity and principle.

Work Experience

Junior Front-End Developer - **ShunnoIt**

Feb 2023 - Aug 2023

- Developed web application for Internet billing software using **React** and **Redux Toolkit**.
- Performed in-depth analysis and research for client requirements and demands.
- Implemented different new features and fixed different bugs from time to time.

Worked as a Frontend developer and implemented different features of **Netfee** internet billing software which is a complex software with outstanding programming logic and it really helped me enrich my Front-end development skills as well as learn newer technologies and by implementing my skills client satisfaction has been achieved.

Skills

Expertise: HTML, CSS, Javascript, React, Redux, RTK Query, Bootstrap, TailwindCSS, C, C++.

Comfortable: Nodejs, Expressjs, MongoDB.

Familiar: React Query, MySQL, GraphQL, NextJS, TypeScript, Python.

Tools: Git, Github, VS Code, Figma, Netlify, Vercel.

Personal Projects

❖ Task Hunter - MERN-Stack

March 2023 - April 2023

LIVE: <https://task-hunter.vercel.app/>

CLIENT: <https://github.com/AFK247/Task-hunter>

SERVER: <https://github.com/AFK247/Task-hunter-Server>

Technology: React, Redux ToolKit, RTK Query, JWT, Bootstrap, Node, Express, MongoDB

- Users can manage his daily tasks by logging in.
- JWT authentication system with tokens implemented for authorization.
- RTK query is used for optimized data fetching and data mutation with caching.

❖ Buy Lap - MERN-Stack

August 2022 - August 2022

LIVE: <https://buy-lap.web.app>

CLIENT: <https://github.com/AFK247/Buy-Lap-Client>

SERVER: <https://github.com/AFK247/Buy-Lap-Server>

Technology: React, React-Router, React Query, Firebase, Bootstrap, Node, Vercel, Express, MongoDB

- Buy and Sell Website with user authentication and implemented JWT authorization.
- Buyer, Seller & Admin Route with individual route with their individual dashboard.
- Stored data to MongoDB & implemented CRUD operation.

❖ Pro Photography - MERN-Stack

July 2022 - July 2022

LIVE: <https://photography-2351.web.app>

CLIENT: <https://github.com/AFK247/Pro-Photography-Client>

SERVER: <https://github.com/AFK247/Pro-Photography-Server>

Technology: React, React-Router, Firebase, Bootstrap, Node, Express, MongoDB

- Service based website where users can buy and review services
- Private route for Users and implemented User authentication with firebase.
- Review System for the users after they log in and can see other reviews and ratings.

Education

- **B.Sc in Computer Science And Engineering** **Jan 2018 - Aug 2023**
— Rajshahi University Of Engineering And Technology (RUET), Rajshahi
CGPA: 3.43 (Out of 4)
- **Higher Secondary Certificate** **Aug 2015 - April 2017**
— The Millennium Stars School And College, Rangpur
Group: Science
Board: Dinajpur
Passing Year: 2017
GPA: 5.00 (Out of 5)
- **Secondary School Certificate** **Jan 2013 - April 2015**
— The Millennium Stars School And College, Rangpur
Group: Science
Board: Dinajpur
Passing Year: 2015
GPA: 5.00 (Out of 5)

Languages

- Bangla - Native
- English - Fluent

Hobbies And Interest

- I really like to read books in my leisure time.
- I enjoy hanging out with my friends and cousins and discussing technologies.
- I like traveling a lot. Whenever I get a chance I try to explore new places.
